PHOENIX Medical Supplies will be recognised as a provider of
top class business relevant solutions to the UK healthcare industry,
operating with honesty and integrity to show leadership in partnership

Role Mandate

Job Title:	OutSystems Technical Lead
Function /CFBU:	IT
Dimensions of the Job:	2 direct reports
Reports to:	Head of IT Solution Delivery
Location:	Runcorn

Job Summary:

Establish the new OutSystems function putting in place appropriate practices, standards, techniques and tools.

Leading your team work with customers to truly understand business problems and opportunities. Using OutSystems low code platform architect, design, build and deploy innovative digital solutions. Play an active part in all stages of the process from initial idea through to launch and move to BAU.

Demonstrate a strong commitment to team growth through a blend of directed training, knowledge transfer and code review.

Responsibilities:

- Establish the new function by putting in place appropriate practices, standards, techniques and tools

- Keep abreast of industry trends and advances within the practice of software development. Drive the continuous evolution of best practices in the OutSystems development team

- Handle a split between architecture and design responsibilities, and programming responsibilities

- As a technical leader or contributor (or both), solve problems of considerable scope and complexity and mentor less senior developers with their work

- Build solutions, primarily using OutSystems Low Code Application Platform

- Develop custom extensions to OutSystems in C# where there is a need

- Integrate with other business applications typically using RESTful APIs

- Collaborate on team growth through peer coding, code review, and knowledge transfer

- Ensure appropriate QA processes are in place and followed including unit and integration testing, and usability testing. Automate testing as far as possible

- Ensure an appropriate level of documentation is maintained for developed solutions

*PHOENIX Medical Supplies will be recognised as a provider of
top class business relevant solutions to the UK healthcare industry,
operating with honesty and integrity to show leadership in partnership*

- Work collaboratively across the IT function to ensure that appropriate support processes are put in place for developed solutions

- Work with colleagues across the wider business to ensure that appropriate consideration is given to security and data protection at the earliest opportunity and prior to build.

General

- Demonstrates the Company's values and behaviours that drive business performance, customer and quality excellence and engagement of our people
- Leading and building a high performing team that in turn adds value to the business in line with budget and relevant financial constraints.

Key Experience, Knowledge, Skills & Qualifications:	### Key Experience

- Several years' professional experience in software development, ideally C# or Java.
- Minimum 2 years' development experience with OutSystems or a similar low Code Platform.
- Strong experience in developing web and mobile applications.
- Experience with leading and mentoring other members of the development team in design, development, implementation, peer code reviews, and technical meetings

Knowledge and Skills

- Knowledge of software engineering principles, algorithms, data structures, and object-oriented design.
- Proven ability to design and optimize application and data integration processes across systems.
- Understanding of RESTful APIs and how to use them in practice.
- Delivering software using Test and/or Behaviour Driven Design and familiarity with test automation and CI/CD pipelines.
- Lean and/or agile ways of working and use of supporting tools, ideally Jira or Azure DevOps.
- Familiar with the principles of usability and its application

Qualifications

- Degree in Computer Science or Engineering or equivalent experience.
- OutSystems certification is a plus.
